

EMPLOYEE BENEFITS

Captive Reinsurance

Risk Management Program.

Connect the dots
with our global captive solution: A risk management program that consolidates local employee benefits plans from multiple countries into a corporate's own captive via a reinsurance mechanism.

Strong end-to-end captive solution consisting of a comprehensive set of high-quality services.

Our commitment to captive.

Our experience in providing captive solutions for global employee benefits (EB) tells us that it is more than just a financial transaction for our clients. It is a combination of risk management, human resource and governance strategies. It is about ensuring control and transparency around a major spend for a company. And it is about working with a strong, capable partner to deliver a sustainable and well-served program both globally and locally.

We understand your needs

- Control over EB data
- Control over EB costs
- Optimization of governance
- Global partnership
- Risk management expertise
- Optimization of benefits

Creating financial value for you

- Cost control via cost containment
- Increased cash flow for the captive

... and non-financial value

- Insurance of difficult risks
- Reinsurance solutions for the captive
- Direct access to a network of strong local insurance partners
- Control and transparency (governance) via optimized underwriting and reporting

We bring considerable experience and a strong track record in the implementation of captive business.

Allianz Reinsurance Platform

Our Allianz central reinsurer not only consolidates reinsurance but also functions as central risk management gatekeeper for each cession.

Since establishing our first program in 2008, we have been leading the way in terms of innovation, flexibility and service quality, turning our global captive proposition into one of the strongest available in the market.

CAPTIVE REINSURANCE

The global EB captive offering by Allianz Global Benefits is a strong end-to-end captive solution consisting of a comprehensive set of high-quality services:

Best in class account management

A dedicated team is professionally managing our clients' accounts based on a clear three step approach: Detailed underwriting and pricing information, certificates as proof point and quarterly accounting.

Accommodation of new product features

According to the one-stop-shop-model, our EB insurance services include healthcare, well-being, assistance, pension as well as newly emerged benefits.

Interactive client portal

MyAGB, a personalized EB online portal allows you to explore the details of your captive program and keep track on priorities.

Automated and digitalized reporting

All the data needed is provided in a variety of formats, locally and globally, which allow to understand performance and profitability of the programs.

Collateral options

We are offering full partnership in establishing the financial agreements around a captive program.

Quality network management

A strong corporate life and health network ensures the provision of EB solutions to multinational clients on a local and global level.

Enhanced technical value chain

We are strongly investing to enhance our technical pricing and underwriting capabilities.

Additional solutions

Specific client needs may be addressed in co-created projects.
